# 911 e-Learning Solutions, LLC

specializes in designing, developing, and delivering high-quality e-Learning initial and continuing education courses in both hybrid and fully online models

911 e-Learning Solutions isn't simply an industry leader in online education. We are an innovation in a field inundated with experts, trailblazing a better approach to e-Learning development for healthcare and public safety. We don't just develop EMS education: We are EMS. We can create more effective courses at more affordable price points because of our immersion in the Emergency Services field.

## Here's what makes 911 e-Learning Solutions different...

- We are your Subject Matter Experts
- We know healthcare and public safety
- We have a proven track record with e-Learning for large and small organizations
- We have a versatile, multi-faceted team to meet every project need
- We work with you, not just for you

*In short: Our unique comprehensive approach saves you time, money and headache by guiding you seamlessly through each step of the e-Learning course development process.*

## LEADERSHIP

911 e-Learning Solutions, LLC has more than 18 years of experience in e-Learning courses for Emergency Services, including continuing education for EMS, Fire, Rescue, and Law Enforcement.

President and CEO L. Kelly Kirk, III, AAS, BS, MEd., Paramedic, pioneered online continuing education in North Carolina and has a reputation for quality, innovation, and integrity. Since 2000, he has designed hundreds of courses for online and hybrid delivery.

Under his expert leadership and guidance, North Carolina hybrid EMT courses have enjoyed a 100% success\* rate on state and national certification exams. After developing the Hybrid EMT model in North Carolina, he co-authored and helped design the "Virtual EMS Academy" hybrid EMT class for Pearson-Brady. Today, 911 e-Learning Solutions has an established rapport with numerous state offices, governmental agencies, and higher education institutions.

\*Success rate defined as students achieving state certification after completion of course.
